## Annual Report to the Nation on the Status of Cancer

Jointly issued by the Centers for Disease Control and Prevention (CDC), the North American Association of Central Cancer Registries (NAACCR), the American Cancer Society (ACS), and the National Cancer Institute (NCI). This report is an update of rates for new cases and deaths as well as trends for the most common cancers in the United States. This year's Special Section focuses on cancer trends among adults ages 20 to 49. For more information about the report go to: [https://seer.cancer.gov/report\\_to\\_nation/](https://seer.cancer.gov/report_to_nation/)

**Most Common Cancer Types for Ages 20-49, 2011-2015**

MEN	WOMEN
1. COLORECTAL	1. BREAST
2. TESTICULAR	2. THYROID
3. MELANOMA	3. MELANOMA

## CDC/OSH Resource:

### "Know the Risks: A Youth Guide to E-cigarettes"

CDC's Office on Smoking and Health (OSH) has developed a presentation designed to educate youth on e-cigarettes, including health risks, the factors that lead to e-cigarette use, and what youth can do to avoid all tobacco products, including e-cigarettes. This resource is intended for adults who educate or serve youth ages 11–18 (teachers, youth ministers, coaches, scout leaders, etc.). To download a copy of the presentation along with talking point and other educational resources visit: <https://bit.ly/2MsPy52>
